Greetings REACH Partnership Parents and Students:

As the summer speeds along, we are working diligently to prepare for the start of the 2017-18 school year. We are excited about the programming and opportunities that we have in place for our students. For the SY17-18, we will service students in grades nine through twelve. We are currently projected to have approximately 600 students enrolled. We will continue to offer the following programs; Health Care, Construction, Homeland Security, JROTC, Career Research & Development, and Early College.

In addition to these aforementioned program offerings, we will be implementing several new instructional initiatives design to increase academic rigor in our classes and to provide supports for all students. This year, we will again be expanding upon the number of Honors and AP Courses offered to our students. We have also partnered with the College Bound organization to increase the number of students being accepted into college and to increase the number of scholarship opportunities awarded to our students. Additionally, we have also competed and secured a Truancy Court Program to assist us with our attendance concerns. Finally, we are pleased to announce that this year we will be introducing our Ninth Grade Academy. The Ninth Grade Academy is designed to help our students successfully transition into high school.

Below you will find key logistical information to aide you in preparing your child for a successful school year.
