

Specialized Training

Baltimore City School Police

Developing A Restorative & Strength-Based Approach

August 28, 2018

The mission of the Positive Schools Center (PSC) is to promote positive, supportive and mindful learning communities where students and school staff can connect, develop and grow.

PSC envisions that positive, supportive and mindful learning communities will be places where students and school staff can:

*Connect with each other in a safe and positive environment in a mindful manner.

*Positively Develop as students and staff (academically/professionally, socially, and emotionally)

*Grow as student scholars and educational leaders

PSC aims to partner with school districts to identify and collaborate around issues related to school climate and punitive discipline, especially when those issues result in high rates of suspensions and expulsions.

Adolescent Substance Use Addiction & Harm Reduction

August 29, 2018

Open Society Institute-Baltimore focuses on the root causes of three intertwined problems in our city and state:

* drug addiction

* an over-reliance on incarceration

* obstacles that impede youth in succeeding inside and out of the classroom.

We also support a growing corps of social Entrepreneurs committed to underserved populations in Baltimore.

Trauma Informed Care Training

October 18, 2018

The Baltimore City Health Department is the oldest, continuously-operating health department in the United States, formed in 1793, when the governor appointed the city's first health officers in response to a yellow fever outbreak in the Fells Point neighborhood. During the more than 220 years since then, we've been working to improve the health and well-being of Baltimore residents. We strive to make Baltimore a city where all residents realize their full health potential. In collaboration with other city agencies, health care providers, community organizations and funders, we aim to empower all Baltimoreans with the knowledge, access, and environment that will enable healthy living. The Baltimore City Public Schools System has implemented the Positive Behavior Interventions and Supports program. With the Trauma Training Program Coordinator, (Baltimore City Health Department employee) training agencies and institutions throughout the City in methods of implementing a trauma-responsive approach with the mission of creating a Trauma-Informed Baltimore.

One Love Foundation

October 19, 2018

The goal is to equip parents, caregivers, and other adults working with young people, with tools to engage their children and the young people they work with in conversation about the difference between healthy and unhealthy relationship behaviors. Give information through guides that provides action steps one can take if they suspect the young persons in their life are in an unhealthy relationship.

Effective Youth Engagement

November 5, 2018

Understanding urban youth development and skills to build trust and respect in Student-Police relationships.
