FAMILY MEDICAL LEAVE (FMLA) OVERVIEW

**********Keep this Overview for your own reference**********

PLEASE READ THOROUGHLY

This packet includes the necessary forms to request FMLA. Eligible employees may request this leave for their own serious health condition, eligible family member’s serious health condition and reasons of exigency while the military member (immediate family) is on active duty status. The law allows eligible employees to take up to 12 weeks (60 days) of unpaid leave per 12 month period for reasons related to you or an eligible family member’s serious medical condition and up to 26 weeks to care for a family member who is recovering from a serious illness or injury sustained in the line of duty on active duty. Those employees eligible have entitlement to leave, maintenance of health benefits during leave, and job restoration after leave.

ELIGIBILITY REQUIREMENTS

- Employed with City Schools for 12 months or longer, 20 hours per week or more (0.5 or more)
- AND 1,250 hours of Actual Hours Worked prior to request for leave date.

Employee may request leave during any 12-month period for one or more of the following reasons:

- For the birth and care of the newborn child of the employee;
- For placement with the employee of a son or daughter for adoption or foster care;
- A serious health condition that makes the employee unable to perform the essential functions of his or her job;
- To care for an eligible family member (spouse, child, or parent) with a serious health condition; or
- For any qualifying exigency arising out of the fact that the spouse, son, daughter, or parent of the employee is on active duty, or has been notified of an impending call to active duty status, in support of a contingency operation.

METHOD FOR DETERMINING 12-Month PERIOD

- The 12-month period measured backward from the date an employee uses any FMLA leave. Each time an employee takes FMLA leave, the remaining leave entitlement is the balance of the 12 weeks/60 days which has not been used during the immediately preceding 12 months.

NOTIFICATION REQUIREMENTS – Foreseeable and Unforeseeable Absences

- Foreseeable absences - 30 days or "as soon as practicable."
  You are required to give City Schools a 30-day advanced notice for planned leaves, but if that is not possible, notice must be given as soon as practicable (within one or two business days of when you learn of your need for leave).
  Example: Your doctor tells you today that your son must have surgery next week, you should inform your location of your need for leave within the next two business days.

- Unforeseeable absence - "As soon as practicable" / within one or two business days
  Since advanced notice is impossible for unplanned absences, you are required to give notice "as soon as practicable" (within one or two business days) after you become aware of the seriousness of the condition. Notice may be given in person, in writing, by telephone, or fax machine.

In either case, you must give City Schools adequate and timely notice when FMLA is needed. Otherwise leave can be disallowed or delayed and the absences counted towards discipline.

Leave IS NOT authorized unless approved by Leaves Management. Failure to receive prior approval may result in denial of payment for the days in question and in appropriate disciplinary action. FMLA is an unpaid leave, City Schools requires that any accrued leave time available to you be used as compensation during this leave.

A Complete Packet consists of: 1) Acknowledgement Form  2) Request  3) Complete and Sufficient Health Care Provider Certification (MUST be returned within 15 days from the date of notification)

If at any time the requested and/or required documentation is not received timely, sufficiently or completely, your request for FMLA leave may be denied. In addition you may not receive any type of PAID time off for days preceding the receipt of the required documents, and absences incurred may be subject to disciplinary action.

Certification for Family and Medical Leave

Family and Medical Leave Act of 1993: Section 825.800 Definitions-Subpart H

A “Serious Health Condition” means an illness, injury, impairment, or physical or mental condition that involves one of the following: A serious health condition involving continuing treatment by a health care provider includes any one or more of the following:

1. **Hospital Care**
   - **Inpatient care** (i.e., an overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity or subsequent treatment in connection with or consequent to such inpatient care.

2. **Incapacity and Treatment**
   - A period of incapacity (the term *incapacity* means inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment therefore, or recovery there from) of more than three consecutive, full calendar days, and any subsequent treatment or period of incapacity relating to the same condition, that also involves:
     - **Treatment**1 two or more times, within 30 days of the first day of incapacity, unless extenuating circumstances exist, by a health care provider, by a nurse or physician’s assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider; or
     - **Treatment** by a health care provider on at least one occasion which results in a regimen of continuing treatment2 under the supervision of a health care provider.

The requirement in (a) and (b) of this section for treatment by a health care provider means an in-person visit to a health care provider. The first (or only) in-person treatment visit must take place within seven days of the first day of incapacity.

Whether additional treatment visit or a regimen of continuing treatment is necessary within the 30-day period shall be determined by the health care provider.

The term “extenuating circumstances” in (a) of this section means circumstances beyond the employee’s control that prevent the follow-up visit from occurring as planned by the health care provider. Whether a given set of circumstances are extenuating depends on the facts. For example, extenuating circumstances exist if a health care provider determines that a second in-person visit is needed within the 30-day period, but the health care provider does not have any available appointments during that time period.

3. **Pregnancy or Prenatal Care**
   - Any period of incapacity due to pregnancy, or for prenatal care.

4. **Chronic Conditions**
   - Any period of incapacity or treatment for such incapacity due to a chronic serious health condition.
   - A **chronic serious health condition** is one which:
     - Requires **periodic visits** (defined as at least twice a year) for treatment by a health care provider, or by a nurse or physician’s assistant under direct supervision of a health care provider;
     - Continues over an **extended period of time** (including recurring episodes of a single underlying condition);
     - May cause **episodic** rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).
5. **Permanent/Long-Term Conditions Requiring Supervision**
   A period of incapacity which is **permanent** or **long-term** due to a condition for which treatment may not be effective. The employee or family member must be **under the continuing supervision of**, but need not be **receiving active treatment by**, a **health care provider**. **Examples include**: Alzheimer’s, a severe stroke, or the terminal stages of a disease.

6. **Multiple Treatments (Non-Chronic Conditions)**
   Any period of absence to receive **multiple treatments** (including any period of recovery there from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for **restorative surgery** after an accident or other injuries, or for a condition that **would likely result in a period of incapacity of more than three consecutive, full calendar days in the absence of medical intervention or treatment**, such as cancer (chemotherapy, radiation, etc), severe arthritis (physical therapy), or kidney disease (dialysis).

Absences attributable to incapacity under (3) or (4) qualify for FMLA leave even though the employee or the covered family member does not receive treatment from a health care provider during the absence, and even if the absence does not last more than three consecutive, full calendar days. **For example, an employee with asthma may be unable to report for work due to the onset of an asthma attack or because the employee’s health care provider has advised the employee to stay home when the pollen count exceeds a certain level. An employee who is pregnant may be unable to report to work because of severe morning sickness.**

---

1. Treatment includes examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations.

2. A regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition. A regimen of treatment does not include the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider.
