1.2	Effective Academic Programming for Students with Disabilities		City Schools/ Renewal Application/ IEP Quality Monitoring Process	Evidence that school has a demonstrated a strong trajectory of growth, is aware of its data and responsibilities to students with disabilities, does not have any gaps or has decreased gaps in the data as it relates to performance and climate metrics for students with disabilities over time, and has effectively and consistently implemented processes, interventions and strategies to support student outcomes over the course of the contract.	Evidence that school has a demonstrated a trajectory of growth, is aware of its data and responsibilities to students with disabilities, has minimum gaps or has decreased gaps in the data as it relates to performance and climate metrics for students with disabilities over time, and has generally implemented appropriate processes, interventions and strategies to support student outcomes over the course of the contract. The school has taken prompt and appropriate steps to address any shortcomings.	Evidence that school is working towards a trajectory of growth, is aware of its data and responsibilities to students with disabilities, and has implemented processes, interventions and strategies to support student outcomes including to address any gaps in the data as it relates to performance and climate metrics for students with disabilities over time over the course of the contract but in some instances has struggled to take measures that are appropriate and sufficient. The school has taken steps to remedy such shortcomings.	Little or no evidence that school is working towards a trajectory of growth and is aware of its data and responsibilities to students with disabilities. The school has a myriad of instructional approaches, processes and practices in place that seek to ensure that all student groups achieve and to prevent gaps between student groups from appearing. If gaps are present for student groups that make up 10% or more of students in the school, or no fewer than 20 students, the gaps are minimal and the school has implemented effective strategies that have kept the lower performing groups' performance high, being in the 80th percentile or higher in the district	Evidence that the school has delivered quality programming for students in all racial groups and is aware of its data for each student group. While there may be achievement gaps between student groups that make up 10% or more of students in the school, or no fewer than 20 students, the school has varied instructional approaches, processes and practices in place to identify these gaps and has implemented effective strategies that have kept the lower performing group's performance between the 65th to 80th percentile in the district.	Evidence that the school is making progress in delivering quality programming for all student racial groups and is aware of its data of all student groups. There may be achievement gaps between student groups that make up 10% or more of students in the school, or no fewer than 20 students, but the school has implemented some instructional approaches, processes and practices that the school believes will decrease these gaps. However, these strategies have not yet been proven effective as shown in the school's data for different student groups .
