Dear Dorothy I. Height Elementary School Families, Students, and Community Members,

City Schools is committed to making sure that every school across the city provides our students with high-quality educational experiences that enables students to thrive, supports their learning and encourages their personal growth.

Part of our work in reaching this goal includes an annual review of the district’s schools and programs that looks at a broad range of considerations, including academic performance, school climate, school programming, enrollment trends, conditions of school facilities, the range and balance of school options in different parts of the city, and the 21st Century School Buildings Plan.

Your school is housed in its new 21st Century facility and has space to safely accommodate additional students. Increasing the zone for Dorothy I. Height to serve more families, not only helps additional students and families to access programming and resources already offered to the school community; it would also help increase the capacity of Dorothy I. Height to offer more academic programming that would also benefit existing families.

Dorothy I. Height is located near another school, Eutaw Marshburn, that has had enrollment challenges for several years. Eutaw Marshburn Elementary School is also housed in facility with serious structural issues that prevent long-term school use. In addition, to being near Eutaw Marshburn, Dorothy I. Height is within a mile of 2 other elementary programs that could accommodate Eutaw Marshburn students – The Historic Samuel Coleridge Taylor and Furman Templeton Preparatory Academy.

The size of the school populations impacts our ability to provide your student(s) with strong academic programming because schools are funded on a per student basis. When schools are of a healthy-size, per student funding allows school leaders working with families and community partners to prioritize rich and varied programming in schools.

Tonight, based on the results of this year’s review, I am recommending that the Baltimore City Board of School Commissioners consider closing Eutaw-Mashburn Elementary School in June 2022, at the end of the current school year, and rezoning students to either The Historic Samuel Coleridge Taylor Elementary School, Dorothy I. Height Elementary School, or Furman Templeton Preparatory Academy. I believe these proposed changes will also increase your students access to rich, robust, and varied educational programs.

If the closure of Eutaw Marshburn is approved, starting in the 2022-23 school year, students in Eutaw Marshburn zone who live northwest of Laurens St. would be rezoned to Dorothy I. Height Elementary; students who live southeast of Laurens St. and portions of Furman Templeton zone directly below Eutaw Marshburn would be rezoned to The Historic Samuel Coleridge Taylor Elementary; students who live southwest of Pennsylvania Ave. from both the Eutaw Marshburn and Samuel Coleridge Taylor’s zones would be rezoned to Furman Templeton Preparatory Academy. (To view the proposed zone changes in a map, please read the Annual Renewal Report found here: [www.baltimorecityschools.org](http://www.baltimorecityschools.org))

I am also recommending that the Baltimore City Board of School Commissioners consider returning the Eutaw-Mashburn building to the city of Baltimore in summer 2022.

As a member of the Dorothy I. Height community, your feedback on this recommendation is critical. A meeting at your school will take place beginning at 12:00 p.m. on Monday, December 1, where you can learn more and get answers to your questions.

In addition to attending meetings to better understand the reasons for the recommendation, you can also view the report...
that has been provided to the Baltimore City Board of School Commissioners (“Board”). The report is titled Annual Review of Schools: Review and Recommendations, 2021-22 (“Report”). The Report outlines the recommendations and the factors the Board must consider in this process. The Report is available on the district’s website (www.baltimorecityschools.org) and upon request can be reviewed at your school.

You can provide written feedback to the Board from now through 5:00 p.m. on Friday, January 7, 2022. Written comments must include full identification of the sender and should be directed to the Baltimore City Board of School Commissioners, 200 E. North Ave., Room 406, Baltimore, Maryland 21202, or sent by email to portfoliorecommendations@bcps.k12.md.us.

In addition, there are two opportunities where you can give oral commentary to the Board on the recommendations.

- Public hearing: Thursday, December 2, 7:30 to 9:30 p.m.
- Special work session: Wednesday, December 15, 6:30 to 8:30 p.m.

Due to the ongoing COVID-19 public health emergency, all Board meetings are being held remotely. Please check the Board calendar or BoardDocs on the City Schools website for call-in information to observe the meetings which can be found here: https://www.baltimorecityschools.org/board-meetings. The opportunity for oral testimony will be closed after completion of the December 15 special session.

After consideration of all of the factors, other information learned through the process including public feedback, the Board will vote on these recommendations at its meeting on Tuesday, January 11, 2022. If the Board votes to approve closure of the Eutaw Marshburn Elementary School and to change the zone boundaries of your school, district office staff will be available to meet with you to ensure that the transition process is smooth and meets students’ and families’ needs.

Thank you for supporting our schools and students. We look forward to working in partnership with students, families, and school communities to create a district of high-quality school programs that meets the needs of every student in Baltimore.

Sincerely,

Dr. Sonja Brookins Santelises
