

Our Health & Safety Standards For Fall 2021

Baltimore City Public Schools is excited to welcome students back to in-person learning for the 2021-22 school year on August 30. Our health procedures are below. For the latest health and safety updates, visit baltimorecityschools.org/safety-procedures

COVID-19 VACCINATIONS

City Schools is partnering with the Baltimore City Health Department to provide vaccination clinics at schools. The list of clinics is available on the Health Department website under COVID 19 Vaccine Information.

FACE COVERINGS

Face coverings will continue to be required indoors for everyone.

SOCIAL DISTANCING

Social distancing will be maximized to the extent possible. Schools may resume in-person meetings with families with participants socially distanced.

SCREENING/ TESTING

Regular COVID testing will continue this fall to help identify potentially infected people. On-site COVID testing will be available for students who have symptoms of a COVID-like illness.

VENTILATION

Higher efficiency mechanical filters and HEPA air purifiers will continue to be used to help mitigate infectious aerosol transmission.

HAND WASHING

Routines and education to support hand washing and respiratory etiquette will continue to be implemented.

SYMPTOM MONITORING

Everyone will be required to monitor their symptoms before entering a building. Those with symptoms may not enter. Individuals who test positive for COVID-19 will be isolated. Non-vaccinated and symptomatic vaccinated close contacts will be quarantined.

DISINFECTING & CLEANING

Cleaning and disinfecting procedures will be conducted by each building's team daily using products designed to combat COVID-19.
