

Baltimore City Public Schools

In-Person Learning, 2021 - 2022

Required commitments of families participating in person who choose to opt-out of City Schools' on-site COVID-19 testing program.

Baltimore City Public Schools has developed a robust on-site COVID-19 testing program to promote health and safety. City Schools' testing program is **convenient, safe, and free of charge**. For those who would prefer to arrange their own COVID-19 testing for their student through another organization, please review the following requirements.

- I have considered the benefits of City Schools on-site COVID-19 testing program, and I am declining to participate.
- City Schools will set a testing schedule for my child's school, and I must ensure that my child receives a COVID-19 test through another organization within 24 hours of when they would have been tested through the City Schools program (weekly or biweekly depending on the schedule of my child's school and if symptomatic).
- I will ensure my child receives PCR tests which are the most reliable form of COVID-19 tests.
- I will provide City Schools with my child's test results within 24 hours after they are made available to me.
- I understand that failure to comply with the above rules may require City Schools to take steps necessary to protect the health and safety of my child, as well as other students and staff including limiting my child's in-person programming.
