

## Career and Technical Education:

# Automotive Technician

**Cluster: Construction and Development**

*"It is cool to have skills that I can help others and make money while still in high school." - Student*

### How do I know if this pathway is right for me?

In choosing a pathway, ask yourself :  
What do I enjoy doing?  
What am I good at doing?  
Does this pathway align with my dreams and goals?

### What do I have to do to complete this course?

In this four-course sequence students will take hands on courses that include Steering, Brakes, Electrical Systems, and Engine Repair.

### Which Schools offer this pathway?

Edmondson-Westside High School  
Forest Park High School  
Mergenthaler Vocational-Technical High School

Cars are a very convenient mode of transportation when they're working, but when they stop we need an expert to repair them. The automotive technician pathway will teach you how to be a mechanic. You will learn how to perform the routine maintenance and repairs needed to keep vehicles running smoothly.

### What's the bonus?

- Optional Drivers Education
- Seamless transition to CCBC's automotive technician program
- Site visits
- Guest speakers
- Internships
- Apprenticeship

### Get Certified or Licensed:

Automotive Service Excellence (ASE) Certification

### Possible Careers & Average Salaries in this Pathway:

Automotive Technician \$44,000
