

Career and Technical Education:

Plumbing

Cluster: Construction and Development

"It is cool to have skills that I can help others and make money while still in high school." Student

We cannot survive without water, and this pathway keeps the water flowing. From the design of our clean water systems, to the maintenance of our wastewater systems, plumbers provide us with the water we need to truly live. Various and developing apprenticeship programs exist with our Construction pathways including one with BGE. These "earn as you learn" models vary in length but allow students to enter the workforce more quickly and continue training in their trade.

What's the bonus?

- Site visits
- Guest speakers
- Internships
- Apprenticeships

Get Certified or Licensed:

- NCCER Construction Core and Plumbing Level 1
- OSHA 30 certification that is used in most construction and industry settings.

Possible Careers & Average Salaries in this Pathway:

Plumber/pipefitter/steamfitter- \$57,500
Pipelayer - \$43,500

How do I know if this pathway is right for me?

In choosing a pathway, ask yourself:
What do I enjoy doing?
What am I good at doing?
Does this pathway align with my dreams and goals?

What do I have to do to complete this course?

This four-course sequence combines classroom instruction and "hands-on" application such as a "student built" house. Course sequence includes two courses specific to residential and commercial building.

Which Schools offer this pathway?

Mergenthaler Vocational-Technical High School
Carver Vocational-Technical High School
