

Early Learning Supplemental Registration Information for General Education Students

The Let's Grow Citywide Programs are funded and designed to support 3-year-old children with Individual Education Plans (IEPS) and their non-disabled peers. Because there are limited seats in each of these programs, if your child has an IEP or an IFSP (Individual Family Service Plan), they are not considered eligible to be a non-disabled peer in the Let's Grow program and can't register. Non-disabled children accepted to Let's Grow who become eligible for an IEP may not remain in the program.

Please contact Early Learning Programs at (443) 642-3990 with any questions or concerns.
